

Sealed Air®

BRAND PROTECTIVE PACKAGING

StealthWrap®

Ultra-durable cartoning solution

Designed to optimize billable weight, improve fulfillment velocity, and support sustainability initiatives.

Sealed Air's opaque, flexible parceling film seals and protects packages during transit, removing the need for outer boxes and additional packaging materials. It's available in two colors: box brown, to mimic corrugate, or carbon, a dark gray, made-to-order shade. StealthWrap® was named a Diamond Finalist Award in Dow's 2018 Awards for Packaging Innovation.

IT'S TIME TO RETHINK THE BOX

INCREASES THROUGHPUT VELOCITY

StealthWrap® is an automated parcel-ready solution that's up to 20x faster than cartons and supports a ships-in-own-container (SIOC) strategy.

REDUCES FREIGHT COSTS

When compared to corrugated outer cartons, StealthWrap® could save as much as 18% in billable weight costs.

ENABLES SPACE SAVINGS

One roll of StealthWrap® can replace 1,000 cartons, saving square footage in your warehouse.

ENHANCES SUSTAINABILITY

By eliminating the need for void fill or corrugate, StealthWrap® streamlines material use and reduces material waste by up to 80 percent.

INCREASES OVERALL PROFITABILITY

Switching from corrugate to StealthWrap® can save \$2.50 or more on the total cost of delivering a package, when considering labor, freight, material costs and more.
