

Model T-7F Shrink Tunnel

A Dependable Top Performer That's All About *Value!*

- **Virtually Maintenance-Free**—Thanks to straightforward, dependable design.
- **Value-Priced**—The cost-effective solution for applications where fixed height top air and standard-duty conveyor are sufficient.
- **Easy to Use**—Set temperature, conveyor speed, velocity, and go!
- **Flexible**—Adjustable top air jet velocity ensures superior shrinks of unusual product.
- **Two-Year Warranty**—A hallmark of our continued assurance of quality.

Sealed Air Corporation

Simple, reliable, and hard-working...that's the Shanklin high-performance line of proven shrink tunnels. Contact your Shanklin distributor to find out more.

Value Performer; Built to Last

If shrink-wrapping your product doesn't require anything more complex than fixed height top air and a standard-duty conveyor, then the hard-working, economical Shanklin Model T-7F Shrink Tunnel is for you. It gives you all of the rugged and reliable service your packaging production demands—plus a variety of convenient standard features. This is a value engineered workhorse.

T-7F Plan View

Shanklin Model T-7F Specifications

Tunnel passage	8" high x 22" wide x 42" long
Overall dimensions	66" high x 36" wide x 74" long
Conveyor height	28" minimum, 40" maximum
Conveyor speeds	Variable from 15 to 120 ft./min.
Blower motor	Large 3/4 hp, single phase capacitor start
Heaters	Six finstrip (encased element)
Power	230 volts, 1 phase or 3 phase, 12.6 KVA max. (6-7 KVA normal usage) (460V, 3 phase available)
Temperature controller	Digital readout solid-state controller
Controls	<ul style="list-style-type: none"> • Independent top air velocity control • Main power fused disconnect • Conveyor switch • Main air velocity • Tunnel control switch • Conveyor variable speed
Safety features	<ul style="list-style-type: none"> • Motors overload protected • E-stop switches for conveyor drive • High temperature limit switch
Accessories	<ul style="list-style-type: none"> • Special package guides • Casters

U.S. Patent No. 3,312,811
