

# Sealed Air®

BRAND PROTECTIVE PACKAGING

## Ultipack™

### Automated Void Containment Packaging System

The Ultipack™ system automatically inserts a flexible corrugated wedge into the formed trays, locking the items in place before the box is reduced and sealed.

#### OPERATIONAL BENEFITS

- Fully automated, integrated solution.
- Increases order processing speed - industry-leading throughput.
- Minimises shipping, consumable and operating costs while optimising productivity.
- Reduces damage - patented packaging construction keeps items secure during transport.
- The corrugated wedge option is ideal for B2B applications ensuring secure blocking for multiple item orders, whilst the Korrvu® Auto Fix and Auto Fix Light are perfect for B2C, delivering an enhanced customer experience.
- Designed on the same foundations as the I-Pack system, it offers savings on spare parts if you opt for the complete solution.

#### BRAND EXPERIENCE

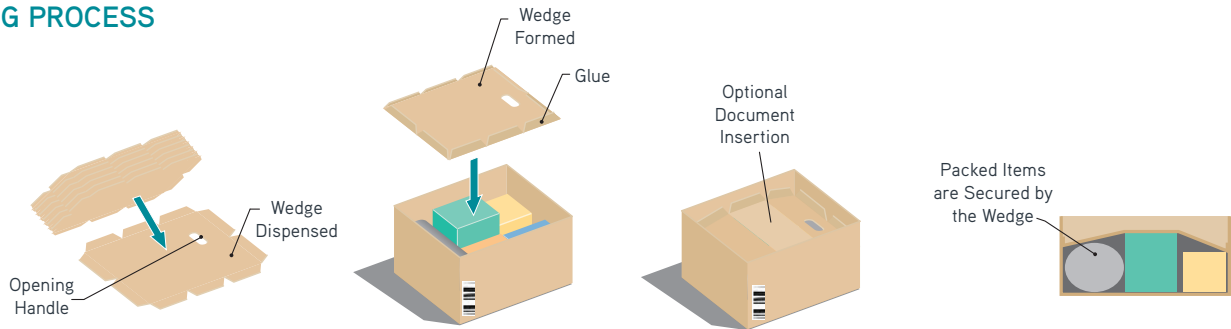

- The packaging's neat appearance significantly elevates the brand's image.
- Customise your packaging and ensure the safety of your products with the innovative Korrvu® Auto Fix and Korrvu® Auto Fix light wedging, which features an insert securely glued to the box.
- Easy and simple to open thanks to the integrated tear strip.
- Print custom designs to highlight your brand.
- Multiple wedge feeder for multi-brand management.
- Provide an unrivalled customer experience - Sealed Air's team will help you create a custom Ultipack™ solution that meets your customers' needs, adding value even after the package is sealed.

#### SUSTAINABILITY

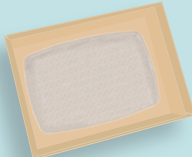

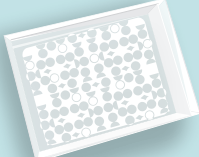

Several wedging solution options are available:

- Ultipack wedges are made from 100% corrugated material.
- Auto Fix wedges: designed by Sealed Air and RESY certified, indicating that the packaging is 100% recyclable in your paper/cardboard waste stream.

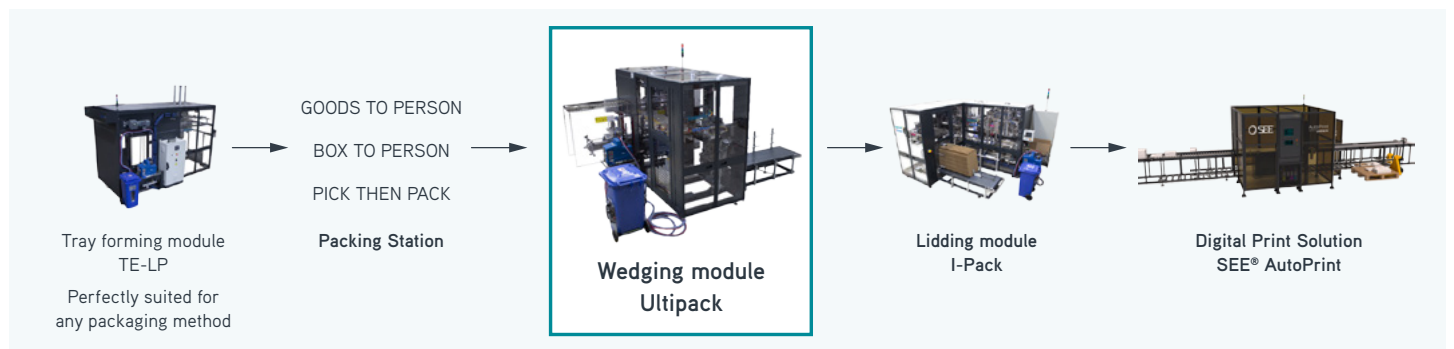

## WEDGING PROCESS

## SELECT THE WEDGING OPTION THAT BEST FITS YOUR NEEDS

OPTION 1: Corrugated wedge	OPTION 2: Korrvu® Auto Fix	OPTION 3: Korrvu® Auto Fix Light
 <p><b>10 Flaps Wedge</b> Flap Height = 45 420 &gt; Box length ≥ 630 250 &gt; Box length ≥ 450</p> <p><b>8 Flaps Wedge</b> Flap Height = 45 320 &gt; Box length ≥ 420 250 &gt; Box length ≥ 420</p>	 <p>The high-resilience low-slip film locks products within the centre of the insert, reducing damage from shock and vibration.</p>	 <p>The technical cardboard canvas locks products within the center of the insert while maximising visual appearance.</p>
